

Workplace violence increases annually.

**Occupational
fatalities**
from workplace violence

780
workers in
2011*

14,770
workplace homicide victims
1992-2012*

in occupational **fatalities**
in 20-24 age range in 2011*

*US Department of Labor, Bureau of Labor Statistics

Are you and your employees prepared to render aid to victims?

Studies show that hemorrhage (bleeding) is the largest cause of preventable death in penetrating trauma, such as a shooting. In an effort to save innocent lives, **Mercy's Workplace Casualty Care Program** applies lessons learned from the global war on terror to your workplace.

Workplace Casualty Care Program:

- Learn how to apply life saving medical skills in the event of an incident of workplace violence, tornado, explosion or other calamity
- Empowers your employees to act confidently
- Gives employees greater peace of mind
- Offers 1 hour of professional hands-on training

*Fee is determined based on size and number of classes.
